BILLING CODE 4310-70-M

Public Scoping Session; Golden Gate National Recreation Area; Crissy Field Site Design

SUMMARY: Notice is hereby given in accordance with the provisions of the National Environmental Policy Act (42 U.S.C. 4321 et seq.) that a public scoping workshop will be held at Building A, Fort Mason Center on Thursday, January 12, 1995 from 7:00-9:00 pm. (p.d.t.) in San Francisco. This meeting will constitute a public scoping session for the preparation of a Site Design Plan and environmental document. In accordance with section 102(2)(C) of the National Environmental Policy Act of 1969, Pub. L. 91-190, the National Park Service is preparing an environmental document to address the Crissy Field Site Design. At this time,

the National Park Service has not determined whether an Environmental Assessment or Environmental Impact Statement will be prepared, however this meeting will serve as the scoping session for either document.

The responsible official is Stanley T. Albright, Regional Director, Western Region, National Park Service. The draft Site Design Plan and environmental document are expected to be available for public review in May 1995. The final plan and environmental document are expected to be completed in August 1995.

For additional information on these items, contact the General Superintendent, Golden Gate National Recreation Area, Building 201, Fort Mason, San Francisco, California 94123.

The main agenda items at the public workshop will be a presentation of the approved concepts and actions for the Crissy Field planning area from the Presidio General Management Plan Amendment and Environmental Impact Statement (GMPA/EIS); identification and discussion of issues related to this planning process, public comment to date, information about the environmental setting of the site, and preliminary concepts for alternatives.

The approved GMPA concept for Crissy Field includes restoration of wetlands and the historic airfield; expansion of natural dunes and improved access to the shoreline; provision of parking and access to support boardsailing and other recreational activities, and an improved entrance to this park site. This phase of planning will take this programmatic concept to a further level of detail for implementation.

The public workshop announced above will be the first of several workshops and meetings conducted over the next six months by the National Park Service as part of the planning process for the Crissy Field area of the Presidio.

Statements of issues and concerns for the purposes of scoping will be accepted through February 28, 1995.

The meeting is open to the public. Persons who cannot attend the workshop, but wish to receive handouts that will be available at the meeting, or other additional information should contact the Park Planner, Golden Gate National Recreation Area, Building 201, Fort Mason, San Francisco, California 94123 or telephone (415) 556-4137.

Minutes of the meeting will be available to the public. For copies of the minutes, contact the Office of the Park Planner, Golden Gate National Recreation Area, Building 201, Fort Mason, San Francisco, California 94123.

Dated: December 16, 1994.

Ray Murray,

Regional Director, Western Region.

BILLING CODE 4310-70-P

Mississippi River Corridor Study Commission

AGENCY: National Park Service, Interior.

ACTION: Notice of meeting.

SUMMARY: This notice sets the schedule for the forthcoming meeting of the Mississippi River Corridor Study Commission. Notice of this meeting is required under the Federal Advisory Committee Act (Public Law 92-463). Meeting Date and Time: January 26, 1995; 2 p.m. until 6 p.m. Address: Hampton Inn, 4646 Constitution, Baton Rouge, Louisiana.

The business meeting will be open to the public. Space and facilities to accommodate members of the public are limited and persons will be accommodated on a first-come, first served basis. The Chairman will permit attendees to address the Commission, but may restrict the length of presentations. An agenda will be available from the National Park Service, Midwest Region, 1 week prior to the meeting.

FOR FURTHER INFORMATION CONTACT:

Alan M. Hutchings, Acting Associate Regional Director, Planning and Resource Preservation, National Park Service, Midwest Region, 1709 Jackson Street, Omaha, Nebraska 68102, (402) 221-3082.

SUPPLEMENTARY INFORMATION: The Mississippi River Corridor Study Commission was established by Public Law 101-398, September 28, 1990.

Dated: December 21, 1994.

William W. Schenk,

Acting Regional Director, Midwest Region.

BILLING CODE 4310-70-P

INTERNATIONAL TRADE COMMISSION

[Investigation No. 731-TA-724; Preliminary]

Manganese Metal From the People's Republic of China

Determination

On the basis of the record ¹ developed in the subject investigation, the

¹ The record is defined in sec. 207.2(f) of the Commission's Rules of Practice and Procedure (19 CFR § 207.2(f)).

Commission determines,² pursuant to section 733(a) of the Tariff Act of 1930 (19 U.S.C. § 1673b(a)), that there is a reasonable indication that an industry in the United States is threatened with material injury by reason of imports from the People's Republic of China (China) of manganese metal,^{3,4} provided for in subheadings 8111.00.45 and 8111.00.60 of the Harmonized Tariff Schedule of the United States, that are alleged to be sold in the United States at less than fair value (LTFV).

Background

On November 8, 1994, a petition was filed with the Commission and the Department of Commerce by Elkem Metals Company, Marietta, OH, and Kerr-McGee Chemical Corporation, Hamilton, MS, alleging that an industry in the United States is materially injured or threatened with material injury by reason of LTFV imports of manganese metal from China. Accordingly, effective November 8, 1994, the Commission instituted antidumping investigation No. 731-TA-724 (Preliminary).

Notice of the institution of the Commission's investigation and of a public conference to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the **Federal Register** of November 17, 1994 (59 F.R. 59419). The conference was held in Washington, DC, on November 29, 1994, and all persons who requested the opportunity were permitted to appear in person or by counsel.

The Commission transmitted its determination in this investigation to the Secretary of Commerce on December 23, 1994. The views of the Commission are contained in USITC Publication 2844 (December 1994), entitled "Manganese Metal from the People's Republic of China: Investigation No. 731-TA-724 (Preliminary)."

By order of the Commission.

² Commissioner Crawford dissenting.

³ As defined by Commerce, manganese metal is composed principally of manganese, by weight, but also contains some impurities such as carbon, sulfur, phosphorous, iron, and silicon. Manganese metal contains by weight not less than 95 percent manganese. All compositions, forms, and sizes of manganese metal are included within the scope of this investigation, including metal flake, powder, compressed powder, and fines.

⁴ Commissioner Rohr and Commissioner Newquist determine that there is a reasonable indication that an industry in the United States is materially injured by reason of the alleged LTFV imports from China.

Issued: December 27, 1994.

Donna R. Koehnke,

Secretary.

BILLING CODE 7020-02-P

[Investigation No. 731-TA-675; Final]

Saccharin From China

Determination

On the basis of the record¹ developed in the subject investigation, the Commission determines,² pursuant to section 735(b) of the Tariff Act of 1930 (19 U.S.C. § 1673d(b)) (the Act), that an industry in the United States is not materially injured or threatened with material injury, and the establishment of an industry in the United States is not materially retarded, by reason of imports from China of saccharin, provided for in subheading 2925.11.00 of the Harmonized Tariff Schedule of the United States, that have been found by the Department of Commerce to be sold in the United States at less than fair value (LTFV).

Background

The Commission instituted this investigation effective June 23, 1994, following a preliminary determination by the Department of Commerce that imports of saccharin from China were being sold at LTFV within the meaning of section 733(b) of the Act (19 U.S.C. § 1673b(b)). Notice of the institution of the Commission's investigation and of a public hearing to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the **Federal Register** of July 20, 1994 (59 F.R. 37056). The hearing was held in Washington, DC, on November 10, 1994, and all persons who requested the opportunity were permitted to appear in person or by counsel.

The Commission transmitted its determination in this investigation to the Secretary of Commerce on December 22, 1994. The views of the Commission are contained in USITC Publication 2842 (December 1994), entitled "Saccharin from China: Investigation No. 731-TA-675 (Final)."

By order of the Commission.

¹ The record is defined in sec. 207.2(f) of the Commission's Rules of Practice and Procedure (19 CFR § 207.2(f)).

² Commissioner Rohr and Commissioner Newquist dissenting.

Issued: December 22, 1994.

Donna R. Koehnke,

Secretary.

BILLING CODE 7020-20-P

DEPARTMENT OF LABOR

Employment and Training Administration

Notice of Determinations Regarding Eligibility to Apply for Worker Adjustment Assistance and NAFTA Transitional Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974, as amended, the Department of Labor herein presents summaries of determinations regarding eligibility to apply for trade adjustment assistance for workers (TA-W) issued during the period of December, 1994.

In order for an affirmative determination to be made and a certification of eligibility to apply for worker adjustment assistance to be issued, each of the group eligibility requirements of section 222 of the Act must be met.

(1) that a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated,

(2) that sales or production, or both, of the firm or subdivision have decreased absolutely, and

(3) that increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or threat thereof, and to the absolute decline in sales or production.

Negative Determinations for Worker Adjustment Assistance

In each of the following cases the investigation revealed that criterion (3) has not been met. A survey of customers indicated that increased imports did not contribute importantly to worker separations at the firm.

TA-W-30,382; *Steuben Foods, Inc., Elma, NY*

TA-W-30,459; *Borg Textile Corp., Rossville, GA*
